CERTIFIED TRAILERS SIGNALING SOLUTIONS

NOREP provides solutions

Designer, manufacturer and industrial trader, NOREP is specialized in signaling and lighting equipment for trailer.

Growth and new development

NOREP's growth is mainly driven by its customers in three complementary expertise area.

CONCEPTION AND DESIGN LIGHTING SOLUTION

Innovative product development
(Worldwide Patent)

BESPOCK REALIZATION

Customized harness
and OEM products

SUPPLYING AND TRADING SERVICES

Trailers accessories
and signaling lights

NOREP focuses on sustainable and efficient SOLUTIONS

- Provide for many years LED sustainable technology
- Excellent light Color Rendering Index (CRI)
- Lower power consumption and long-lasting quality
- Reduce copper quantity
- No built-in obsolescence
- Low waste materials political
- Promote eco-packaging

NOREP is part of a social responsibility approach that contributes to sustainable development (CSR).

LED'SINNO UNIQUE PATENTED MODULAR SYSTEM

The end of long-term projects, prototyping and validation concept.

LEDs'INNO for professional trailer from 300 kilos to 3 tones

A revolutionary modular Plug&Play system for evolutive harness, that helps improve your quality and productivity *

Used by renowned manufacturers as the primary equipment

The Leds'INNO Plug&Play concept lets you design your own kit in all trailer configurations. You can easily add function at any time!

- 1► Smart patented circuit, integrated to lights and connection boxes to ensure the right signal to the right function (left, right, front, rear, etc.)
- 2► You choose from a variety of disposable waterproof accessories and cable lengths
- 3► Large range of multifunction LED lights, polycarbonate shock-resistant, IP 69K waterproof, and easy mounting

*Time savings for engineering & methods, purchasing department and workshops facilities

Simplify all of your tasks

- ▲ Fast implementation design
- ▲ Pricing tool and online configurator

Meet your customer's requirements

- ▲ Wide range of signaling functions
- ▲ Scalable harness
- ▲ Evolutive configuration

Improve quality and productivity

- ▲ Quick and easy assembly process
- ▲ Plug & Play, no tool, no error, no specialist

Online
configurator

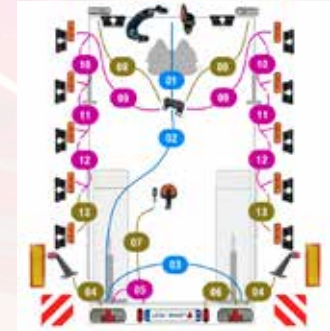

OEM SOLUTIONS BY NOREP

On-demand services

We make harnesses on-demand according to your plans and specifications

Harness conception on-demand

Layout & Model plan

Branch solution

NOREP design professionals' solutions for branch business. We provide methods and business solutions specifically designed for your market.

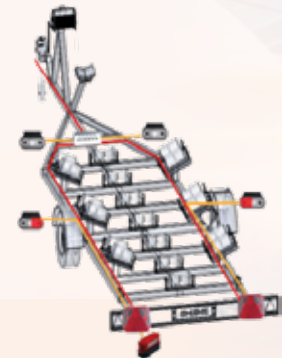

Trailer controllers

Vehicle testers

Branch dedicated lighting

R&D for OE Design

Custom taillight

1 ► NOREP design and manufacture lights according to OEM specifications.

2 ► NOREP offer to transpose our patented LED's INNO technology for other industrial applications

NOREP is committed to provide solution for your projects whatever is your expectations according to required standards.

c TRADING SERVICES AND BRANCH SOURCING SOLUTIONS

Sourcing solutions for trade distribution

Through its long-term trusted international partnerships, we offer sourcing solutions over 30 effective years of expertise.
